PROJECTS

Todo App (like Trello)

🔗 <https://github.com/markobozic346/todo-react-redux-app>

Currently, my most complex project created with react, redux, react-beautiful-dnd, material UI, and local storage, it helped me to understand better:

- Conditional component rendering.
- How Redux works also about store, actions, reducers and dispatch.
- Creating Draggable and Droppable components using react-beautiful-dnd.
- Material UI pre-styled components also makeStyles hook generator.
- How local storage works with redux state.

My Notes

🔗 <https://github.com/markobozic346/my-notes-typescript-app>

The app I'm currently working on, the idea with this App is to implement TypeScript language with React and Redux, what is done until now:

- Components UI
- Rendering Components from global state
- Redux store, action and reducers

Weather App

🔗 <https://github.com/markobozic346/weather-app>

My first react app created using openweather API, it helped me to understand:

- What is React and how its works.
- Functional Components and passing props
- useEffect and useState hooks.

Tic Tac Toe Browser Game with AI

🔗 <https://github.com/markobozic346/tic-tac-toe-4x4>

Game created for a hackathon, the game has 3 game modes (easy, medium, hard) and its was made with:

- HTML & CSS
- JavaScript

ABOUT ME

I'm self-driven, highly motivated front-end developer, with an eye for details and an analytics approach. Curious, determined, and consistent, especially for learning new technologies.

Currently developing in React ecosystem, but I'm open for any other front-end frameworks.

TECH STACK

HTML	CSS/Sass	JavaScript
ES6	React	Redux
Node	Git	TypeScript
Bootstrap	C#	jQuery

LANGUAGES

Serbian	Native
English	Advanced

EDUCATION

Computer Technician

MEŠ GOŠA - High School

📅 09/2016 - 06/2020

📍 Smederevska Palanka

- During school, I met with C, C#, MySQL and phpMyAdmin.
